

Green Teaching in the Classroom: Recycling, Special Waste, and Compost Sustainability Workshops for K-12 Educators

Missouri Botanical Garden; Commerce Bank Center for Science Education
4651 Shaw Boulevard, St. Louis, Missouri 63110

If you want to start your students thinking about trash, recycling, or compost, this workshop is for you!

A series of 3 **FREE** workshops will provide you with the key resources, tools, and knowledge you need to bring solid-waste topics like recycling, household hazardous waste, and composting into your classroom. Through engaging activities and action projects you can help empower your students to make changes in their homes, schools, and communities. Participate in 1, 2, or all 3 classes!

All classes take place from **4 to 7 p.m.** at the Commerce Bank Center for Science Education.

Recycling in the Classroom - Tuesday, January 29, 2019

Special Waste in the Classroom - Tuesday, February 12, 2019

Composting in the Classroom - Thursday, March 14, 2019

In these workshops, you will:

- Get a full understanding of what happens when we throw things “away.”
- Build confidence in your own content knowledge.
- Learn the ins-and-outs of what should be recycled, composted, or sent to the landfill.
- Discover best practices to encourage environmental stewardship in students.
- Learn how to help develop students’ problem-solving and critical thinking skills through student projects.
- Learn how to plan, implement, and evaluate projects with real-world impacts.
- Access cross-curricular, inquiry-based materials, and lesson plans on waste and recycling topics.
