

Class Recycle Plan

15-30 minutes Grades K-12

STL City Recycles

Let's chat about ways in which your class can recycle responsibly at school!

Purpose

To teach the basic principles of recycling: why, how and what. To introduce classroom sustainability goals by asking leading questions and giving examples.

Subjects

- Science
- Language Arts
- Sustainability

Materials Needed

- Table space for a writing activity

Verification

Age appropriate pre and post-test based on material being covered

Activity

After an introductory presentation about recycling, learners will collaborate to produce a recycling plan for their class.
