

# Recycle Relay: A Sorting Game

20-45 minutes Grades 2-12

**STL City Recycles**

## Purpose

To teach the basic principles of recycling: why, how and what.

## Subjects

- Science
- Movement
- Sustainability

## Materials Needed

- Room to move around quickly

## Verification

Age appropriate pre and post-test based on material being covered

## Activity

After a short presentation about recycling and a pre-test, learners will show their knowledge in this sorting activity. Teams will compete in a relay style race to pick up and sort items into the correct bins– either recycling or trash. Everyone will receive prizes!
