

Sustainability Songs, Chants, & Poems

20-45 minutes Grades 4-12

STL City Recycles

Do you have students who love to sing or write poems?

Purpose

To teach the basic principles of recycling: why, how and what. Engage learners through creative expression.

Subjects

- Science
- Language Arts
- Sustainability

Materials Needed

- Writing utensils
- Desks or tables for writing

Verification

Age appropriate pre and post-test based on material being covered

Activity

After recycling specialists read an example of a sustainably focused poem, we will brainstorm ideas and words to use in the making of their own song, chant, or poem about the benefits of reducing, reusing, and recycling!
