

Upcycle Fashion Show

40-60 minutes Grades 3-12

STL City Recycles

Get creative and upcycle your fit!

Purpose

To teach the basic principles of upcycling and sustainability. To provide a creative way to use old materials and turn them into fashion accessories.

Subjects

- Family and Consumer Sciences
- Fine Arts
- Sustainability

Materials Needed

- Collect items that would otherwise be discarded that can be used
- Table space for collection of materials previous to the lesson
- A space in your classroom or school to have a fashion show
- Glue, paper clips, tape, other ways to fasten items to create accessories
- Scissors, markers, colored pencils, paint, etc

Verification

Age appropriate pre and post-test based on material being covered

Activity

After an introductory presentation about recycling and upcycling, students will choose items previously collected to create fashion items or accessories to wear for a classroom fashion show.
